

10783930

10/783,930

If released, the spring will quickly snap to the nearest stable position or into engagement with the paper 51.

Please amend page 8 by canceling the second paragraph, lines 9 – 15, in its entirety. <sup>13</sup> *Lj* 11/28/07

[ A modified embodiment of the clamp 26 is shown by dashed lines in Figs. 2 and 7. In the modified embodiment, a yoke portion 52 projects transversely from the leg portions 45 and 46 so as to form a handle portion that can be gripped when moving the clamp 26 from engagement with the paper sheets 51 into its open position.]
